Does not include not stated responses

38% of the LGA's population are aged between 25 and 49 years. A number of communities have a higher percentage of their communities in this age group. For example, 58% of people born in both Sri Lanka and Vietnam and 55% of people born in Hong Kong are in this age cohort. The Dutch speaking community has the largest percentage of people aged 60 years or more with 43% of the population in this age group. For the LGA the corresponding figure is 14% and for the region 16%.
